Software Engineer

San Francisco, CA (or Remote, New York, NY)

PROFILE

Mid-Level software engineer with 4+ years experience building startups, IDE extensions, open-source projects, and web, mobile, and full-stack apps. Strong collaboration and communication skills from 6+ years of engineering and sales. Key skills include React, Python, React Native, AWS, and AI Dev Tools.

EXPERIENCE

Continue.dev — *Software Engineer*

OCT 2024 - Present, San Francisco, CA

- Developing the leading AI Coding Assistant hub and open-source extensions for VS Code and Jetbrains
- Core contributor to a highly active open source project with 25k+ stars and hundreds of contributors. Contributions
- Key member of fast-moving startup engineering team, growing users from 500k to 1 million+ in months

Thunklab — *Founding Engineer*

SEP 2023 - Present, San Francisco, CA + Remote

- Founded dev lab specializing in full-stack concept projects and data/architecture consulting. Example projects:
- Created MapThis.AI for generating, editing, and sharing interactive maps from web/text content, built on OpenAI
- Built OutbackFriends.com, a social app for the outback community, with Supabase, Leaflet, and Ably realtime updates
- Frontend for rpg-gpt.com, a text-based AI role-playing game. Helped secure 6-figure angel investment
- Created gear-gen, open-source Typescript packages (npm) for dynamic, animatable spur gears SVG generation

Popchew — *Software Engineer*

APR 2022 - AUG 2023, New York, NY

- Collaborated in fast-moving startup team critical to securing multi-million dollar funding rounds
- Developed ordering system, mobile app, and backend infrastructure for virtual food brand platform (popchew.com), with key technologies including React Native, Typescript, AWS, Python, APIs, and user analytics platforms.

Other

- 2 years as a manufacturing engineer, supervising and improving production lines and developing desktop apps
- 3 summers of door-to-door sales, with 10k+ calls and thousands of hours of direct sales and leadership experience

SKILLS

Typescript, Python, C#, C++, SQL, Javascript, Next.js, tRPC, Git, Authentication, APIs, React, React Native, Animations, Tailwind, Vercel, LLMs, VS Code and Jetbrains Extensions, Vercel, Supabase, AWS, Postgres, Netlify, Mobile Notifications, Prisma, REST, Serverless, OpenAI, Anthropic, Maps, Google Cloud, Analytics, Open Source, Notion, Communication, Sales

EDUCATION

University of Utah — *BS, Mechanical Engineering*

AUG 2016 - MAY 2020, Salt Lake City, UT
